Material Title:	<b>Change Your Brain Change Your Life</b>	<i>Books</i>	1998	305 pages
Author:	Daniel G Amen			

Dr. Amen presents the case that many behavioral disorders formerly considered psychological actually have a biological basis. Through the lens of new brain imaging techniques, you can see what depression, anxiety, temper, impulsiveness and obsession look like in the brain. Dr. Amen gives practical suggestions for overcoming these problems and gives tools for optimizing the brain and improving life.

Material Title:	<b>Special Diets for Special Kids</b>	<i>Books</i>	1998	239 pages
Author:	Lisa Lewis			

This book explains in an easy and readable manner, a complex yet intriguing intervention strategy for helping children and adults with autism. Drawing upon her own success with removing gluten and casein from her son's diet, she answers many questions parents and professionals might have about choosing a dietary intervention: Why a special diet? Are there tests to help me decide? Is there research to support this type of intervention?

---

Material Title:	<b>Understanding Anorexia Nervosa* (Children's Materials)</b>	<i>Children's Books</i>	1999	89 pages
Author:	Debbie Stanley			

With true-to-life vignettes and a firm, reassuring tone, Stanley tells adolescent readers about the facts and myths surrounding this potentially life-threatening eating disorder. She describes anorexia's symptoms and causes, including pressure from peers, parents, and society as well as pent-up emotions and low self-esteem. Young readers can also explore healthy ways to take charge of their lives, and those who want to seek help will find practical resources for doing so.

---

Material Title:	<b>Understanding Bulimia Nervosa* (Children's Materials)</b>	<i>Children's Books</i>	1999	115 pages
Author:	Debbie Stanley			

This book for adolescents, explains what bulimia is, how to recognize its symptoms, and why this serious problem is easily overlooked. Using the voices of young people who have struggled with bulimia, Stanley explores the roles pressure from peers, parents, and society -- as well as bottled up emotions and low self-esteem -- can play in developing bulimia. Practical suggestions help young readers learn to recognize and resist society's unrealistic expectations, develop a positive self-image, and evaluate their nutritional habits and fitness level accurately and honestly.

---

Material Title:	<b>When Your Body Gets The Blues: The Clinically Proven Program for Women Who Feel Tired and Stressed and Eat Too Much</b>	<i>Books</i>	2002	191 pages
Author:	Marie-Annette Brown			

This book in four parts, "The Problem," "The Science behind the LEVITY Program," "How to Follow the LEVITY Program," and "Resources and References," recommends a therapeutic combination of sunlight, exercise, and vitamins. It claims to help women think clearly, sleep soundly, cope easily with stress, reduce anxiety and depression, and lose weight in eight weeks.

---

Material Title:	<b>Why Can't I Eat That: Helping Kids Obey Medical Diets</b>	<i>Books</i>	1996	224 pages
Author:	John & R. Sharon Taylor & Latta			

This book helps parents and professionals with psychological and practical advice for getting kids to follow prescribed guidelines for weight control, diabetes, food allergies, digestive disorders, cancer, and hypoglycemia.

---

Material Title:	<b>Why Can't My Child Behave? Why Can't She Cope? Why Can't He Learn?</b>	<i>Books</i>	1996	380 pages
Author:	Jane Hersey			

Written by a family physician, this book tackles child behavior (and misbehavior) through the perspective of diet and nutrition. It shows how certain foods and chemicals in foods affect your child's behavior and offers sound advice on creating a more wholesome diet, and thus a more balanced child. This book will show what you can do to help your child and yourself -- today!
