Material Title: **Aging Out (DVD)**
 Author: DVD *DVDs* 2004 90 min

Aging Out chronicles the daunting obstacles that three young people in foster care encounter as they "age out" of the system and are suddenly on their own for the first time. Navigating the transition from adolescence to adulthood is challenging for even the most mature and privileged youth. For three teens in urban New York and Los Angeles, however, making the transition to independent living is considerably more difficult. Lacking family support, they are suddenly forced to fend for themselves with no job skills, meager financial resources, and little preparation to survive on their own. This emotionally complex film is also a portrait of young adults struggling to overcome the scars of their troubled childhood in order to realize their dreams of independence and fulfillment.

Material Title: **Families Change: A Book for Children Experiencing Termination of Parental Rights* (Children's Material)**
 Author: Julie Nelson *Children's Books* 2006 32 pages

Over time, all families change. Sometimes, when families have big problems, they need to change so kids will be safe. A child's family might change from a birth family to a foster family or an adoptive family. That kind of change can be hard on kids. They may believe that the change is their fault. They may worry about their birth parents, and they may wonder if they can trust the new adults in their life. This book can help children and families through this difficult change. The first part is meant to be read and shared with children. Simple words and realistic color illustrations tell and show why some kids get foster parents or new adopted moms or dads. The second part includes information and resources for adults who work to keep kids safe: parents and other family adults, foster parents, social workers, teachers, and caregivers. With the support of caring adults, children who experience termination of parental rights can move from the pain of the past to the promise of the future.
